

Introducing Blanc Industries' **NEW** Modular Sign System!

Our NEW metal sign holder with track modules give the versatility of signing products when needed...

Available for Euro Tables, island tables and wall cases, this ergonomic design allows you the flexibility to place the track modules in a slotted base frame in a variety of combinations as needed. This eliminates wasted space when there are only 1 or 2 items to advertise. Each track module can be placed on top of each other when more signs are needed.

Adjustable height and to table angle

Sign holder is available in brushed or black aluminum, the track modules allows you to display signs in a variety of ways.

Three item stackable display

One item display

Two item display

Two item display stacked

7" x 11" sign frame display

6-track for category sign display

Swing arm feature for changing track modules and product pricing.

Build the signing to fit the amount of products displayed with separate 3-track stacking modules. Simply insert the modules into the sign holder slot.

Use our 7" x 11" sign frame adapter to advertise weekly pre-printed sign specials

Signs of good things.™
